Congress Yesterday. Both Houses of Congress were in session yesterday. In the House, after the expiration of the morning hour, the report of the Committee on Ruies was taken up, and there was quite a sharp debate over an amendment offered by Mr. White, of Pennsylvania, that no legislation should be attached to appropriation bills. The discussion at one time as-

sumed quite a political character. Georgia, presenting five in relation to the metric system of coinage. The first provides for the coinage, of a metric gold coin to be called the "Stella" of the value of \$4: the second for the coinage of the gold metric dollar, \$2, and fractions of a dollar, and also the coinage of the metric gold double eagle, eagle and half eagle, all of standard value; the third for the miutage of metric gold alloy, its de-posit in the Treasury and issue of certificates therefor; the fourth for the making of ingots of fine gold and ingots of fine silver of the value of \$100 cach, for exportation, manufac-

ture, etc.; the fifth for the coinage of silver dollars and fractions thereof, of full standard value, upon the metric system.

In addition to these measures he also pre-scuted a resolution authorizing the Secretary of the Treasury to furnish States for use of agricultural colleges one set of standard weights nd measures.

During the morning hour there was a little

piece of pleasantry in the House when Mr. Ladd, the Greenback Congressman from that State, asked the privileges of the floor for Mr. Wilson, of the Maine Legislature. Mr. Page, of California, laughingly asked, "Which one?"

The Speaker said he was not informed or the subject, but Mr. Frye vouched for the ap-plicant by saying "the right one," and there was no objection to his admission.

In relation to the demand for labor, he said he was sorry to have to state that Indiana has a great number of worthy poor people who cannot get employment now; that for a few years after the crash of 1873 there was less hardships among this class than now, and perhaps less now than a year ago; and that this immigration, however caused.

and that this ininigration, however caused, was a woeful, cruel crime, as the condition of most of the emigrants is pitiable. General L. D. Manson, another Indiana Democrat, testified that he had been appealed to by colored immigrants from North Carolina, who supposed that the Democrats had a fund for getting Republican voters out of the State. The present State constitution was adopted by a majority of about 20,000 in 1850, but the clause prohibiting colored immigra-tion received 80,000 majority.
